

Contents of Volume 107

- Aalderen M van → Schalk JAC
 Abbondandolo A → Bonatti S
 Adler I-D → Yin H
 Amabis JM → Stocker AJ
 Amorim I → Herrmann S
 Andersen CL, Koch J, Kjeldsen E: CpG islands detected by self-primed in situ labeling (SPRINS) 260
 Andreassen PR → Martineau-Thuillier S
 Ansorge W → Figueroa J
 Archer JE → Smith AM
 Archidiacono N, Storlazzi CT, Spalluto C, Ricco AS, Marzella R, Rocchi M: Evolution of chromosome Y in primates 241
 Arnaud L, Pines J, Nigg EA: GFP tagging reveals human Polo-like kinase 1 at the kinetochore/centromere region of mitotic chromosomes 424
 Asbeck K → Ersfeld K
 Bagnato P → Bonatti S
 Bastos R → Enarson P
 Basu J, Logarinho E, Herrmann S, Bousbaa H, Li ZX, Chan GKT, Yen TJ, Sunkel CE, Goldberg ML: Localization of the *Drosophila* checkpoint control protein Bub3 to the kinetochore requires Bub1 but not Zw10 or Rod 376
 Berloco M → Fanti L
 Betzendahl I → Yin H
 Biessmann H → Kurenova E
 Bilyeu K, Chinault AC: Replication timing properties across the pseudoautosomal region boundary and cytogenetic band boundaries on human distal Xp 105
 Boei J-JWA → Xiao Y
 Bonatti S, Simili M, Galli A, Bagnato P, Pigullo S, Schiestl RH, Abbondandolo A: Inhibition of the *Mt* 70,000 S6 kinase pathway by rapamycin results in chromosome malsegregation in yeast and mammalian cells 498
 Bonvicino CR → Canavez F
 Bousbaa H → Basu J
 Brinkley BR → He D
 Brinkley BR → Kapoor M
 Buntjer JB, Nijman IJ, Zijlstra C, Lenstra JA: A satellite DNA element specific for roe deer (*Capreolus capreolus*) 1
 Burgers PMJ: Eukaryotic DNA polymerases in DNA replication and DNA repair 218
 Burke B → Enarson P
 Busch H → He D
 Busch RK → He D
 Canavez F, Moreira MAM, Bonvicino CR, Parham P, Seuánez HN: Comparative gene assignment in *Ateles paniscus* chamek (Platyrrhini, Primates) and man: association of three separate human syntenic groups and evolutionary considerations 73
 Champion L → Kurenova E
 Chan DW, Yager TD: Preparation and imaging of nuclear spreads from cells of the zebrafish embryo. Evidence for large degradation intermediates in apoptosis 39
 Chan GKT → Basu J
 Chan GKT → Jablonski SA
 Chinault AC → Bilyeu K
 Cimini D, Fioravanti D, Tanzarella C, Degraffi F: Simultaneous inhibition of contractile ring and central spindle formation in mammalian cells treated with cytochalasin B 479
 Clark DV, Sabl JF, Henikoff S: Repetitive arrays containing a housekeeping gene have altered polytene chromosome morphology in *Drosophila* 96
 Clover DM → Gonzalez C
 Cooke CA → Jablonski SA
 Cooke H → Masumoto H
 Cryderman DE, Cuaycong MH, Elgin SCR, Wallrath LL: Characterization of sequences associated with position-effect variegation at pericentric sites in *Drosophila* heterochromatin 277
 Cuadrado A, Schwarzacher T: The chromosomal organization of simple sequence repeats in wheat and rye genomes 587
 Cuaycong MH → Cryderman DE
 Cuenca JB, Galindo MI, Saura AO, Sorsa V, Frutos R de: Ultrastructure of regions containing homologous loci in polytene chromosomes of *Drosophila melanogaster* and *Drosophila subobscura* 113
 Cukurcam S → Yin H
 Cummings C → Kapoor M
 De Boni U → Park PC
 Degraffi F → Cimini D
 Dietrich AJJ → Schalk JAC
 Dorer DR → Fanti L
 Dübendorfer A → Hediger M
 DuBois ML → Prescott JD
 Earnshaw WC → Jablonski SA
 Edström J-E → He H
 Eichenlaub-Ritter U → Yin H
 Elgin SCR → Cryderman DE
 Elke C → Stocker AJ
 Enarson M → Enarson P
 Enarson P, Enarson M, Bastos R, Burke B: Amino-terminal sequences that direct nucleoporin Nup153 to the inner surface of the nuclear envelope 228
 Ersfeld K, Asbeck K, Gull K: Direct visualisation of individual gene organisation in *Trypanosoma brucei* by high-resolution in situ hybridisation 237
 Evans MJ → Wianny F
 Evans SK, Sistrunk ML, Nugent CI, Lundblad V: Telomerase, Ku, and telomeric silencing in *Saccharomyces cerevisiae* 352
 Fanti L, Dorer DR, Berloco M, Henikoff S, Pimpinelli S: Heterochromatin protein 1 binds transgene arrays 286
 Fazekas J → Nagele RG
 Ferguson-Smith MA → Lee C
 Figueroa J, Saffrich R, Ansorge W, Valdivia M: Microinjection of antibodies to centromere protein CENP-A arrests cells in interphase but does not prevent mitosis 397
 Fioravanti D → Cimini D
 Fransz PF → Montijn MB
 Freeman T → Nagele RG
 Frutos R de → Cuenca JB
 Fuchs J, Kühne M, Schubert I: Assignment of linkage groups to pea chromosomes after karyotyping and gene mapping by fluorescent in situ hybridization 272
 Galindo MI → Cuenca JB
 Galli A → Bonatti S
 Glover DM → Wianny F
 Goldberg ML → Basu J
 Gonzalez C, Sunkel CE, Clover DM: Interactions between *mgr*, *asp*, and *polo*: *asp* function modulated by *polo* and needed to maintain the poles of monopolar and bipolar spindles 452
 Gorab E → Stocker AJ
 Goto Y, Kubota S, Kohno S: Highly repetitive DNA sequences that are restricted to the germ line in the hagfish *Eptatretus cirrhat*: a mosaic of eliminated elements 17
 Griffin DK → Lee C
 Grimes B → Masumoto H
 Grummt F → Staib C
 Gull K → Ersfeld K
 Hagemann S, Miller WJ, Haring E, Pinsker W: Nested insertions of short mobile sequences in *Drosophila P* elements 6
 Haring E → Hagemann S
 Hassold TJ → Shen JJ
 He D, Zeng C, Zhong L, Turner D, Woods K, Busch RK, Brinkley BR, Busch H: CENP-G: a new centromeric protein that is associated with the α -1 satellite DNA subfamily 189
 He H, Liao C, Edström J-E: Centromere 3 specific tandem repeat from *Chironomus pallidivittatus* 304
 Hediger M, Niessen M, Müller-Navia J, Nöthiger R, Dübendorfer A: Distribution of heterochromatin on the mitotic chromosomes of *Musca domestica* L. in relation to the activity of male-determining factors 267
 Henikoff S → Clark DV
 Henikoff S → Fanti L
 Hennig W: Editorial 71
 Herrmann S, Amorim I, Sunkel CE: The POLO kinase is required at multiple stages during spermatogenesis in *Drosophila melanogaster* 440
 Herrmann S → Basu J
 Heyting C → Mikhailov EI
 Heyting C → Schalk JAC
 Hoopen R ten → Montijn MB
 Hori T → Solovei IV
 Hsieh C-E → McEwen BF
 Hyrien O → Maric C
 Ikeno M → Masumoto H

- Jablonski SA, Chan GKT, Cooke CA, Earnshaw WC, Yen TJ: The hBUB1 and hBUBR1 kinases sequentially assemble onto kinetochores during prophase with hBUBR1 concentrating at the kinetochore plates in mitosis 386
- Jacobs-Lorena M → Monesi N
- Jantsch M → Loidl J
- Jin Q-W → Loidl J
- Joffe BI, Solovei IV, Macgregor HC: Ordered arrangement and rearrangement of chromosomes during spermatogenesis in two species of planarians (Plathelminthes) 173
- Joffe BI → Solovei IV
- Jong JH de → Mikhailova EI
- Kapoor M, Montes de Oca Luna R, Liu G, Lozano G, Cummings C, Mancini M, Ouspenski I, Brinkley BR, May GS: The *cenpB* gene is not essential in mice 570
- Kaspers B → Nanda I
- Kjeldsen E → Andersen CL
- Klein C → Moerman AM
- Koch J → Andersen CL
- Koch J → Krejčí K
- Kohno S → Goto Y
- Konstantopoulou I, Nikolaidis N, Scouras ZG: The *hsp70* locus of *Drosophila auraria* (montium subgroup) is single and contains copies in a conserved arrangement 577
- Krejčí K, Koch J: Improved detection and comparative sizing of human chromosomal telomeres in situ 197
- Kubota S → Goto Y
- Kühne M → Fuchs J
- Kurenova E, Champion L, Biessmann H, Mason JM: Directional gene silencing induced by a complex subtelomeric satellite from *Drosophila* 311
- Lakhota SC, Tapadia MG: Genetic mapping of the amide response element(s) of the *hsw* locus of *Drosophila melanogaster* 127
- Lee C, Griffin DK, O'Brien PCM, Yang F, Lin CC, Ferguson-Smith MA: Defining the anatomy of the *Rangifer tarandus* sex chromosomes 61
- Lee H-Y → Nagele RG
- Lee K-M → Nagele RG
- Lenstra JA → Buntjer JB
- Lezzi M → Stocker AJ
- Li ZX → Basu J
- Liao C → He H
- Lin CC → Lee C
- Liu G → Kapoor M
- Logarinho E → Basu J
- Loidl J, Jin Q-W, Jantsch M: Meiotic pairing and segregation of translocation quadrivalents in yeast 247
- Loupart M-L, Shen MH, Smith A: Differential stability of a human mini-chromosome in mouse cell lines 255
- Lozano G → Kapoor M
- Lozovskaya ER → Schienman JE
- Lundblad V → Evans SK
- Macgregor HC → Joffe BI
- Macgregor HC → Solovei IV
- Mancini M → Kapoor M
- Margolis RL → Martineau-Thuillier S
- Maric C, Hyrien O: Remodeling of chromatin loops does not account for specification of replication origins during *Xenopus* development 155
- Martin R: Human sperm chromosome complements in chemotherapy patients and infertile men 523
- Martineau-Thuillier S, Andreassen PR, Margolis RL: Colocalization of TD-60 and INCENP throughout G2 and mitosis: evidence for their possible interaction in signalling cytokinesis 461
- Marzella R → Archidiacono N
- Mason JM → Kurenova E
- Masumoto H, Ikeno M, Nakano M, Okazaki T, Grimes B, Cooke H, Suzuki N: Assay of centromere function using a human artificial chromosome 406
- Mattheyses AL → McEwen BF
- May GS → Kapoor M
- McEwen BF, Hsieh C-E, Mattheyses AL, Rieder CL: A new look at kinetochore structure in vertebrate somatic cells using high-pressure freezing and freeze substitution 366
- Mikhailova EI, Naranjo T, Shepherd K, Wennkes-van Eden J, Heyting C, Jong JH de: The effect of the wheat *Ph1* locus on chromatin organisation and meiotic chromosome pairing analysed by genome painting 339
- Miller WJ → Hagemann S
- Mizuno S → Solovei IV
- Moerman AM, Klein C: *Dictyostelium discoideum* Hsp32 is a resident nucleolar heat-shock protein 145
- Monesi N, Jacobs-Lorena M, Paço-Larson ML: The DNA puff gene *BhC4-1* of *Bradyia hygida* is specifically transcribed in early prepupal salivary glands of *Drosophila melanogaster* 559
- Montes de Oca Luna R → Kapoor M
- Montijn MB, Hoopen R ten, Fransz PF, Oud JL, Nanninga N: Characterisation of the nucleolar organising regions during the cell cycle in two varieties of *Petunia hybrida* as visualised by fluorescence in situ hybridisation and silver staining 80
- Moreira MAM → Canavez F
- Müller-Navia J → Hediger M
- Münster U → Nanda I
- Nagele RG, Freeman T, Fazekas J, Lee K-M, Thomson Z, Lee H-Y: Chromosome spatial order in human cells: evidence for early origin and faithful propagation 330
- Nakano M → Masumoto H
- Nanda I, Sick C, Münster U, Kaspers B, Schartl M, Staeheli P, Schmid M: Sex chromosome linkage of chicken and duck type I interferon genes: further evidence of evolutionary conservation of the Z chromosome in birds 203
- Nanninga N → Montijn MB
- Naranjo T → Mikhailova EI
- Natarajan AT → Xiao Y
- Niessen M → Hediger M
- Nigg EA → Arnaud L
- Nijman IJ → Buntjer JB
- Nikolaidis N → Konstantopoulou I
- Nöthiger R → Hediger M
- Nugent CI → Evans SK
- Offenberg HH → Schalk JAC
- Okazaki T → Masumoto H
- O'Brien PCM → Lee C
- Oud JL → Montijn MB
- Ouspenski I → Kapoor M
- Paço-Larson ML → Monesi N
- Parham P → Canavez F
- Park H, Sternglanz R: Two separate conserved domains of eukaryotic DNA topoisomerase I bind to each other and reconstitute enzymatic activity 210
- Park PC, De Boni U: A specific conformation of the territory of chromosome 17 locates *ERBB-2* sequences to a DNase-hypersensitive domain at the nuclear periphery 87
- Parry EM, Ulucan H, Wyllie FS, Wynford-Thomas D, Parry JM: Segregational fidelity of chromosomes in human thyroid tumour cells 491
- Parry JM → Parry EM
- Pigullo S → Bonatti S
- Pimpinelli S → Fanti L
- Pines J → Arnaud L
- Pinsker W → Hagemann S
- Prescott DM → Prescott JD
- Prescott JD, DuBois ML, Prescott DM: Evolution of the scrambled germline gene encoding α -telomere binding protein in three hypotrichous ciliates 293
- Renard J-P → Thompson EM
- Ricco AS → Archidiacono N
- Rieder CL → McEwen BF
- Rocchi M → Archidiacono N
- Sabl JF → Clark DV
- Saffrich R → Figueroa J
- Saura AO → Cuenca JB
- Schalk JAC, Dietrich AJJ, Vink ACG, Offenberg HH, Aalderen M van, Heyting C: Localization of SCP2 and SCP3 protein molecules within synaptonemal complexes of the rat 540
- Schartl M → Nanda I
- Schienman JE, Lozovskaya ER, Strausbaugh LD: *Drosophila virilis* has atypical kinds and arrangements of histone repeats 529
- Schiestl RH → Bonatti S
- Schmid M → Nanda I
- Schubert I → Fuchs J
- Schwarzacher T → Cuadrado A
- Scouras ZG → Konstantopoulou I
- Seuáñez HN → Canavez F
- Shen JJ, Sherman SL, Hassold TJ: Centromeric genotyping and direct analysis of nondisjunction in humans: Down syndrome 166
- Shen MH → Loupart M-L
- Shepherd K → Mikhailova EI
- Sherman SL → Shen JJ
- Sick C → Nanda I
- Simili M → Bonatti S
- Sistrunk ML → Evans SK
- Sljepcevic P: Telomeres and mechanisms of Robertsonian fusion 136
- Smith A → Loupart M-L

- Smith AM, Archer JE, Solomon F: Regulation of tubulin polypeptides and microtubule function: Rkl1p interacts with the β -tubulin binding protein Rbl2p 471
- Solomon F \rightarrow Smith AM
- Solovei IV, Joffe BI, Hori T, Thomson P, Mizuno S, Macgregor HC: Unordered arrangement of chromosomes in the nuclei of chicken spermatozoa 184
- Solovei IV \rightarrow Joffe BI
- Sorsa V \rightarrow Cuenca JB
- Spalluto C \rightarrow Archidiacono N
- Stacheli P \rightarrow Nanda I
- Staib C, Wegner M, Grummt F: Activation of SV40 DNA replication in vivo by amplification-promoting sequences of the mouse ribosomal gene cluster 33
- Sternglanz R \rightarrow Park H
- Stocker AJ, Amabis JM, Gorab E, Elke C, Lezzi M: Antibodies against the D-domain of a *Chironomus* ecdysone receptor protein react with DNA puff sites in *Trichosia pubescens* *Chromosoma* (1997) 106:456-464 141
- Storlazzi CT \rightarrow Archidiacono N
- Strausbaugh LD \rightarrow Schienman JE
- Sumner AT: Induction of diplochromosomes in mammalian cells by inhibitors of topoisomerase II 486
- Sunkel CE \rightarrow Basu J
- Sunkel CE \rightarrow Gonzalez C
- Sunkel CE \rightarrow Herrmann S
- Suzuki N \rightarrow Masumoto H
- Tanzarella C \rightarrow Cimini D
- Tapadia MG \rightarrow Lakhota SC
- Tates AD \rightarrow Xiao Y
- Tavares \rightarrow Wianny F
- Tease C: Chiasma distributions and chromosome segregation in male and female translocation heterozygous mice analysed using FISH 549
- Thompson EM, Renard J-P: Preferential nuclear location of a transgene does not depend on its transcriptional activity during early mouse development 321
- Thomson P \rightarrow Solovei IV
- Thomson Z \rightarrow Nagele RG
- Tommerup N \rightarrow Wandall A
- Tranebjærg L \rightarrow Wandall A
- Turner D \rightarrow He D
- Ulucan H \rightarrow Parry EM
- Valdivia M \rightarrow Figueroa J
- Vig BK, Willcourt M: Decondensation of pericentric heterochromatin alters the sequence of centromere separation in mouse cells 417
- Vink ACG \rightarrow Schalk JAC
- Wallrath LL \rightarrow Cryderman DE
- Wandall A, Tranebjærg L, Tommerup N: A neocentromere on human chromosome 3 without detectable α -satellite DNA forms morphologically normal kinetochores 359

- Zijlstra C \rightarrow Buntjer JB
- Papers from the 4th International Workshop on Chromosome Segregation and Aneuploidy, Porto 1998 351

Indexed in *Current Contents*

1. The first part of the document discusses the importance of maintaining accurate records of all transactions and activities. It emphasizes that proper record-keeping is essential for transparency and accountability, particularly in financial matters. The text suggests that organizations should implement robust systems to track every detail, from small expenses to major investments.

2. The second part of the document addresses the challenges of data management in a rapidly changing environment. It highlights the need for flexible and scalable solutions that can adapt to new technologies and evolving business requirements. The author argues that investing in modern data infrastructure is not just a technical necessity but a strategic imperative for long-term success.

3. The third part of the document explores the role of leadership in driving organizational change. It stresses that effective leaders must communicate a clear vision and inspire their teams to embrace change. The text provides practical advice on how to foster a culture of innovation and continuous improvement, where employees are encouraged to take initiative and learn from their experiences.

4. The fourth part of the document discusses the importance of collaboration and teamwork in achieving organizational goals. It argues that no single individual can succeed in today's complex business landscape; instead, teams must work together, leveraging their diverse skills and perspectives. The text offers strategies for building high-performing teams, including clear communication, mutual respect, and shared responsibility.

5. The fifth part of the document focuses on the importance of staying up-to-date with industry trends and developments. It encourages organizations to engage in ongoing learning and development, both for individuals and as a whole. The text suggests that regular training, conferences, and industry networking can help organizations stay ahead of the curve and identify new opportunities for growth.

6. The sixth part of the document discusses the importance of maintaining a strong ethical foundation. It argues that ethical behavior is not just a moral obligation but a business imperative. The text provides guidance on how to establish a strong code of ethics, implement effective oversight mechanisms, and ensure that all employees understand and adhere to the organization's values.

7. The seventh part of the document discusses the importance of maintaining a strong financial position. It argues that sound financial management is the backbone of any successful organization. The text offers advice on how to budget effectively, manage cash flow, and make informed investment decisions. It also emphasizes the importance of regular financial reviews and reporting to ensure that the organization remains on track.

8. The eighth part of the document discusses the importance of maintaining a strong customer relationship. It argues that customer satisfaction is a key driver of business success. The text provides strategies for understanding customer needs, delivering exceptional service, and building long-term loyalty. It also emphasizes the importance of listening to customer feedback and using it to improve products and services.

9. The ninth part of the document discusses the importance of maintaining a strong brand identity. It argues that a clear and consistent brand is essential for differentiating an organization from its competitors. The text offers advice on how to develop a strong brand strategy, create a memorable logo, and ensure that all communications align with the brand's values and messaging.

10. The tenth part of the document discusses the importance of maintaining a strong legal and regulatory compliance framework. It argues that organizations must stay up-to-date with all applicable laws and regulations to avoid costly penalties and reputational damage. The text provides guidance on how to establish a robust compliance program, conduct regular audits, and ensure that all employees understand their legal obligations.
